Minis

As you can see, we have a wide selection of cobblestones to fit just about any project. Neutral grays complement almost everything, but for a more striking look, we have cobblestones in tan (two sizes) as well as pink and tumbled bluestone. Antique cobblestones also are available in two sizes. These unique cobblestones have been reclaimed from the streets of Philadelphia and cannot be found anywhere else in Richmond. All of these products are sold by the piece, so you can buy as many or as few as you like.

**Photos do not depict actual sizes. Colors will vary since these are natural products.*
